

SEND Data Dashboard Workshop

Martin Cunningham, Senior Consultant, NEL Healthcare Consulting

Context setting: Our journey so far...

2018/19: Local area SEND dataset & dashboard co-designed & launched.

2020/21: Datasets reviewed and new Power Bi dashboard developed.

2019/20: New outcomes statements co-designed and dashboard updated.

The outcomes statements identified by the Data and Information Sharing Accelerated Working Group

My voice is heard

I am healthy

I am happy

I feel supported

I feel safe

I am included and active in my local community

I am able to learn

I am in control of my life

Enabling local areas to measure the progress they are making in achieving specific outcomes

Indicators linked to the outcomes statements – to be populated by local areas

Outcome statements	Recommended headline indicators & performance measures
My voice is heard	<ul style="list-style-type: none">• % of young people and families receiving feedback on how their views have been used.• % of children and young people involved in reviewing their own plans (EHC Plan).
I am healthy	<ul style="list-style-type: none">• % of children and young people missing school or college due to ill health.• % of children and young people with SEND admitted to A&E because of poor mental health.
I am happy	<ul style="list-style-type: none">• % of children and young people with SEND who report that they have at least one good friend.• % of children and young people with SEND reporting anxiety or a reduction in anxiety.

Enabling local areas to measure the progress they are making in achieving specific outcomes

Indicators linked to the outcomes statements – to be populated by local areas

Outcome statements	Recommended headline indicators & performance measures
I feel supported	<ul style="list-style-type: none">• % children and young people with SEND who gave a high rating (1-4) for the support they received in achieving the outcomes in their plan over the last 12 months.• % of parent carers who stated that they know who to contact to get the support they need for their son/daughter.
I feel safe	<ul style="list-style-type: none">• % of children and young people with SEND who feel safe in their local community.• % of children and young people with SEND who told a member of staff about being bullied stated that the bullying has now stopped.
I am included and active in my local community	<ul style="list-style-type: none">• % of absences / exclusions pertaining to children and young people with SEND in mainstream education provision.• % of children and young people with SEND actively involved in a hobby.

Enabling local areas to measure the progress they are making in achieving specific outcomes

Indicators linked to the outcomes statements – to be populated by local areas

Outcome statements	Recommended headline indicators & performance measures
I am able to learn	<ul style="list-style-type: none">• % of children and young people achieving progress in EHC plans / SEN support plans.• % of children and young people with SEND who are excluded, subject to fixed term exclusion or on a reduced timetable.• % of children and young people with SEND achieving expected standards.
I am in control of my life	<ul style="list-style-type: none">• % of young people with SEND in employment.• % of children and young people with SEND who able to confidently access public transport.• % of 19-25 year olds with SEND who are known to the council, who are recorded as living in their own home, or with their family.

Recommendations from the Data and Information Sharing AWG

Additional datasets to be added to the dashboard

- National data on SEND demographics
- Additional information on Attainment 8 scores
- Additional information from the Mental Health Services Dataset
- Updated information from national learning disability dataset
- Health checks for 14-18 year olds with a learning disability
- Next week – Community services dataset.

SEND Data Dashboard Demonstration

Discussion

1. How could you use the dashboard to support local planning?
2. Are there any gaps in the data?
3. Are there any good practice examples on how local areas have used their dashboards to measure the impact of the SEND reforms?
4. What indicators could we collect at a national level to help with this?
