

## SACRE Report from Diocesan Schools Adviser March 2023

### Syllabus training

- Training has been delivered to delegates from 55 Church of England primary schools and academies
- Currently chasing up the 12 local authority maintained CE schools not yet booked on training
- 40+ community schools and academies have booked for the training in May
- An additional date has been added in June for a mix of both schools
- Training enquiries have been received from High Schools and Special Schools
- A live 'staff meeting' for teachers will take place on the 5<sup>th</sup> June for all schools to attend. This will also be recorded and shared
- 4 additional dates to check in with teachers by phase (EYFS to UKS2). All by zoom
- I have contacted all maintained schools to promote the syllabus with mixed results.

### Emmanuel Project

- Two new units of work completed for the Emmanuel Project. These are free for schools who have attended the training.
- All progression documents updated and new assessment guidance produced.

### Syllabus training feedback

A selection of answers from teachers immediately after the training to the question - How will you apply what you have learnt?

- *Review planning, share new long term plan with staff, look at assessment processes and begin to think of the new three disciplines to build into out teaching through the Emmanuel Project*
- *Sign up for training summer term for teachers, look into further RE Lead training, introduce new syllabus to school and amend LT Plan accordingly, research HSS, Th & Ph 'lenses' and increase focus of these in units.*
- *I will slowly work through all the documentation that has been created and begin to create and implement the new syllabus, as well as passing it onto all members of staff, whether they teach RE or not, so that we are all in the know.*
- *I will share initial thoughts with staff and look to implement from September once we have attended further training in the summer.*
- *Update my colleagues as to the changes in planning; update the school website page to reflect the changes in units/ planning; consider how to start implementing philosophical thinking in each year group using the BQs.*
- *Re-write our policy to show the changes with the new syllabus and update long term plan. Ensure our online assessment tool reflects the new syllabus. Ensure all staff receive training on the new RE syllabus ready for September*

### What RE is happening in Suffolk Primaries?

I was interested in how many non-church schools in Suffolk are using the Emmanuel Project. I think it is roughly 60% based on what I could find out from website checks (not always reliable). There are a few schools who have moved away from the Emmanuel Project to Discovery RE. Most schools within MATS appear to be making their own decisions about schemes of work for RE.

All schools highlighted **green** have signed up for syllabus training.

This has been met with resistance from a few local authority schools.

Trust	Name	Purchased Emmanuel project?	Current RE provision 2023 according to website
