

# The Alternative Tuition Service

## What we do

Our teachers provide a child-centred approach, delivering tuition in a range of ways, including:

- 1:1 online and face-to-face lessons
- online group lessons
- online platforms
- technology which enables the child to access their lessons in their school
- workpacks

## Who we work with

We work in partnership with families, schools and other agencies in order to provide the best possible support to all our children and young people, irrespective of how long or how short their journey with us might be.

## What we offer

We are a registered JCQ exam centre and have a GCSE online learning platform for Maths and English. Our young people can also access a range of qualifications at Level 1 and Level 2 Functional Skills and a suite of NCFE qualifications.
